

ORDINANCE NO. 1-84

AN ORDINANCE TO ESTABLISH THE POLICY AND LEVEL OF SERVICE IN RESPECT TO CLEARANCE OF SNOW OR ICE AND MAINTENANCE OF FREMONT COUNTY SECONDARY ROADS DURING THE WINTER WEATHER MONTHS.

BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF FREMONT COUNTY:

SECTION 1 - PURPOSE

The purpose of this Ordinance is to establish this county's policy and level of service in respect to clearance of snow or ice and maintenance of its secondary road system during the winter weather months, as provided in HF 2487, Section 10(2), Acts of the 63rd G.A., Second Session, and pursuant to the provisions of Section 309.67, Code of Iowa. This policy and level of service are to be implemented within the amount of money budgeted for this service, and as contained in this county's secondary road budget as submitted to and approved by the Iowa Department of Transportation and adopted by the board of supervisors.

SECTION 2 - LEVEL OF SERVICE

Clearance of snow or ice and maintenance of the secondary road system during the winter weather months is primarily for the benefit of the local residents of this county. Each storm has individual characteristics and must be dealt with accordingly. The portion of the roadway improved for travel will have upon it snow and ice in a compacted condition. These conditions may be continuous or they may be more concentrated on hills, in valleys, curves and/or intersections. The county's existing snow removal equipment will be utilized for this purpose as directed by the county engineer. All clearance of snow or ice, sanding, salting and other maintenance respecting winter conditions shall be accomplished within the amount of money budgeted for this service. The entire width of that portion of the road improved for travel may not be cleared of snow, ice, compacted snow and ice, or frost... Snow cleared from that part of the roadway improved for travel shall be placed on or in the adjacent shoulder, ditch or right-of-way. Snow can be expected to accumulate adjacent to the traveled portion to the extent that a motorist's sight distance to both the left and right may be greatly reduced or impaired. The snow removed from intersections will be piled in its corners in piles of unequal height. The line of sight, sight distance, or visibility of motorists approaching these intersections may be greatly reduced or impaired. The county shall not be responsible for snow pushed or otherwise placed on the roadway or shoulders by others. Motorists shall drive their vehicles during these conditions with additional caution and watchfulness, especially in respect to the surface of the roadway, and reduced or impaired visibility, and are advised to reduce their speed at least 25 miles per hour below that legally permitted or advised under normal conditions. In respect to roadways that have only one lane open, further extreme watchfulness and caution should be exercised by the motorist, and their speed should not exceed 10 miles per hour. During these conditions no

additional warning or regulatory signs will be placed to warn of impaired sight distances, visibility at intersections, road blockage, one-lane conditions, or that the road surface is slick or slippery, or what the advised speed should be.

SECTION 3 - SEQUENCE OF SERVICE

In the implementation of snow and ice removal and other maintenance of the county's secondary road system during the winter weather months, the county engineer shall select the actual sequence of roads to be cleared as provided for in this section of this Ordinance and shall determine when drifting, wind velocity and additional snow or snow storms require that the snow removal equipment be removed from the roadway or that additional clearance of paved routes be accomplished prior to the clearance of gravel and dirt roads. The county engineer's professional judgment shall prevail.

PAVED ROUTES

1. The initial effort will be to get all routes open to one-lane traffic as soon as possible.
2. After one-lane travel is possible, subsequent snow removal will be carried on during normal working hours.
3. The truck mounted snow plows and spreaders will not normally be in operation between the hours of 4:00 PM to 7:30 AM. The trucks may be called off the road if snow and blowing reduces visibility to hazardous working conditions in the judgment of the county engineer or his delegated representative.
4. When required, due to drifting snow, motor graders may be used to keep the paved roads open and the opening of gravel roads may be delayed.
5. It is not the policy of the county to provide a "dry" pavement condition.
6. After roads have been plowed as provided in this section, intersections, hills and curves may have placed on them, salt, sand or other abrasive. These intersections, hills and curves will not be resanded, resalted or have other abrasives replaced on them between snowstorms. This sequence of service shall be performed only during normal working hours, exclusive of Saturdays, Sundays and legal holidays observed by county employees.

UNPAVED ROADS

1. The initial effort will be to get all residences open to one-lane traffic in one direction as soon as possible after a storm has passed.
2. After one-lane travel is possible, subsequent snow removal will be carried on during normal working hours.
3. Motor graders will not normally be in operation between the hours of 4:00 PM to 7:30 AM. Gravel roads may not be plowed if the wind is causing continual drifting.
4. Snow may not be removed from roads designated as dirt surfaced or as may be designated at Level B.

PRIVATE DRIVES

1. The county will not clear snow from private drives. Normal snow removal operations may result in snow being deposited in private drives. Snow from private drives shall not be placed on the roadway or shoulders.

There is no time limit after a snowstorm in which any of the above sequence of clearance, on paved or unpaved roads, shall take place.

SECTION 4 - LIMITATION ON SERVICE

The policy and level of service provided for in this Ordinance shall not include, and the following services may not be performed:

1. Sanding, salting or placing of other abrasives upon the roadway that are slick, slippery and dangerous due to the formation of frost.
2. Sanding, salting or placing of other abrasives upon paved roadways due to freezing rain that occurs outside the county's usual working hours.
3. Placing of additional warning or regulatory signs warning of impaired sight distances, visibility at intersections, road blockages, one-lane conditions, or that the road surface is slick or slippery, or what the advised speed should be.
4. Sanding, salting, or placing abrasives upon any road, except paved roads.
5. Re-sanding or re-salting for freezing and thawing between snowstorms
6. Replacement of mail boxes, fences or other items damaged during snow removal or ice abatement operations.

Any deviation in the stated hours of operation, sequence, or level of service shall not alter the provisions of this Ordinance.

SECTION 5 - EMERGENCY

The sequence of service may be suspended during "emergency" conditions. An "emergency" condition shall be considered as one where a loss of life is probable, where a serious injury has occurred or where extensive loss of property is imminent. These conditions should be verified through a physician's office or the sheriff's office. The county will respond to such "emergency" conditions either during or after a snowstorm.

The provisions of this Ordinance shall be further suspended in the event the governor, by proclamation, implements the state's disaster plan, or the chairman of the board of supervisors, by proclamation, implements the county's disaster plan. If such occurs, the county personnel and equipment shall be immediately subject to the direction of the governor or the chairman of the board of supervisors.

SECTION 6 - REPEALER

All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

SECTION 7 - SEVERABILITY CLAUSE

If any section, provision or part of this ordinance shall be adjudged invalid or unconstitutional, such adjudication shall not affect the validity of the ordinance as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

SECTION 8 - WHEN EFFECTIVE

This ordinance shall be in effect after its final passage, approval and publication as required by law.

Dated this 7th day of November, 1984:

ATTEST:

s/ Janet L. Whipple
Janet Whipple, Auditor
Fremont County, Iowa

s/ Richard Pullman
Richard Pullman, Chairman
Board of Supervisors
